

# FIRE ALARM

## FIRE ALARM SYSTEMS

When fire strikes and seconds count the fire alarm system springs into action, instantly alerting building occupants and authorities of the danger. This alert allows quick evacuation of the area and the prompt arrival of emergency personnel to the scene.

As a leading distributor of Notifier fire alarm systems, Fox Valley Fire & Safety, a State of Illinois licensed fire alarm contractor, offers you the assurance that when there is a fire, your fire alarm system functions properly. Notifier is the largest manufacturer of fire alarm equipment in the world. As your partner in fire and life safety we design, engineer, install, service, inspect, maintain, repair and monitor fire alarm systems of all the major manufacturers. Our factory-trained personnel are available 24-hours a day, 7-days a week to respond to all of your fire alarm needs.

## VOICE EVACUATION SYSTEMS

Sometimes in a crisis, our first reaction is fear and panic. A Voice Evacuation System that will “announce” throughout your building, calms people and assists in the orderly evacuation of your facility. Additionally, Fire Fighter telephones allow two-way communication for the Fire Department on the scene. Fox Valley Fire & Safety will assist in the design of your system and will provide engineering, installation, service, repairs and inspection.

## ELEVATOR RECALL SYSTEMS

Do you know why City and Municipal Codes require elevator recall systems? These systems eliminate the danger caused by occupants using or being trapped in an elevator during a fire. Fox Valley Fire & Safety can install, service, repair and inspect your Elevator Recall System.

## AREA OF RESCUE ASSISTANCE SYSTEMS

In the event of an emergency situation Fox Valley Fire & Safety works with you to assure that all building occupants and emergency personnel know how to get to the proper evacuation location. These “safe havens” provide refuge for those in harm’s way and help emergency personnel provide safe, rapid evacuation of the area, thus assuring everyone safely exits the property. Fox Valley Fire & Safety will assist you with design, engineering, installation, service, repair and testing.

EXPERIENCED. KNOWLEDGEABLE. RELIABLE. COMPREHENSIVE. INNOVATIVE.
