

**BLUEPOINT**  
ALERT SOLUTIONS

# IS YOUR FACILITY PREPARED?

BluePoint does for law enforcement  
what a fire alarm  
does for the fire department<sup>SM</sup>

Instantly notifies the police and building occupants of an emergency situation.

Enhances, not replaces, existing emergency protocols.

Reduces police response time when seconds count.

Provides focused notification to building occupants and key leaders.

## FBI ACTIVE SHOOTER FACTS

Average duration of an incident is **12 minutes**

63% of incidents last longer than **5 minutes**

97% of incidents by a lone, male shooter

40% of incidents, offender kills themselves

57% of the shootings are still underway when police arrive

20% of incidents, the shooter goes mobile, moves to another location

source: [www.fbi.gov/stats-services/publications/lawenforcementbulletin/2013/May/active-shooter](http://www.fbi.gov/stats-services/publications/lawenforcementbulletin/2013/May/active-shooter)

## WHAT IT DOES

Automatically contacts police with minimal human action

Automatically communicates a threat situation throughout the building and to Administration

Lets the intruder know Police are on their way

Provides Police and Administration initial location of threat information

## BENEFITS

Reduces Police response time (as well as an intruder's time) when seconds count

Provides for the rapid initiation of school protocols throughout the entire building to reduce risk

Does not modify or dictate the school's response protocol

Provides focused notification so that District Leaders are in control of mass notification

Addresses Higher Risk Areas

*"When seconds count, BluePoint's rapid notification ensures that help is on the way."*

-Dr. Todd Stirn  
Superintendent SD 301

*"Anything that reduces Police response time to security emergencies, has the potential to save lives."*

-Undersheriff David Wagner  
Kane County Sheriff's Office  
and S.W.A.T. Team

*"Our students, teachers, principals and school staff can never be too prepared for an emergency situation where a gun is involved."*

-Governor Pat Quinn  
State of Illinois

# INDEPENDENT FLEXIBLE EXPANDABLE

Patent Pending

## SYSTEM

### FIXED WALL UNITS

Strategically Placed Throughout Building

Available for Anyone to Initiate

Minimal Training / Knowledge for Use

### PORTABLE DEVICES

For Strategic Building Occupants

Address Higher Risk Situations

### NOTIFICATION SYSTEM

Existing PA System Integration

Strobes for High-Ambient Sound Levels

Exterior Strobes

### STROBE GUARD

### DEVICE COVER

Polycarbonate cover to guard fixed wall unit from physical damage or weather.

9-gauge steel wire coated with corrosion resistant blue polyester. Protects against vandalism and accidental damage.

### SIGNAGE & DECALS

Full assortment of signs available.

## PROCESS

Fixed units in strategic places

Portable units for flexibility

### DEVICE ACTIVATED

### PA SYSTEM MESSAGE

Once activated, automatically broadcasts pre-recorded announcement and activates strobe lights

### MONITORING COMPANY

Contacts police dispatch and facility leaders with initial location information

### RESPONSE PROTOCOL

Facility occupants take defensive measures according to protocols

### POLICE DISPATCH

Contacts nearest police officers for rapid response

### CALL LIST

Pre-determined key individuals contacted regarding threat

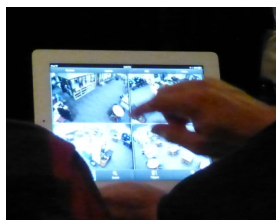

### POLICE RESPONSE OCCUPANT RISK REDUCED

Police on-site faster, Occupants in defense protocol quicker

### AVAILABLE ENHANCEMENTS

- Medical Alert System
- Building Security Enhancements
- Secondary Communication System
- Security Camera System Integration
- Breaking Glass Detection Integration
- Automatic Door Closing / Locking
