

Incident Command & Control Service

2 Two-Way Communication Between First Responders and Building Occupants

3 Follow-Up Messages Provide Actionable, Real-Time Information to Help Building Occupants

Incident Command Portal

- ◆ Messages from Building Occupants undergo immediate Intelligent Analysis to determine commonality so First Responders have greater faith in the information. *EXAMPLE: red hoodie, camo pants, masked*
- ◆ This mass-notification tool is controlled by First Responders and Incident Administrators
- ◆ Incident Command Portal is accessible via multiple web browsers concurrently.
