

Compact Response Unit (CRU) Medical

PREFABRICATED, READY-TO-DEPLOY EMERGENCY RESPONSE PLATFORM

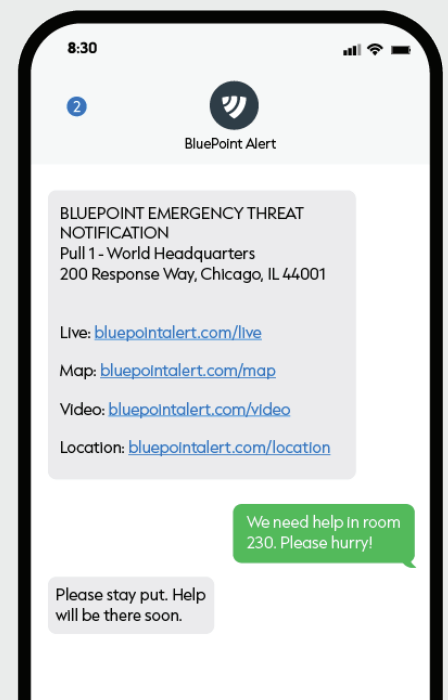

Get the full power of **BluePoint Alert's Command & Control (C2)** solution for medical emergencies with cost-effective customization that integrates your brand & emergency system, fast.

- ✓ Deliver faster, more coordinated on-site response
- ✓ Accelerate notification & first responder activation
- ✓ Minimize chaos with instant, actionable alerts

A LIFE-SAVING SYSTEM

"Because of the rapid response, he was revived before permanent damage occurred, and **continues to live a happy and healthy life.**"

Across **168 acres of campus**, global agricultural leader AGCO safeguards employees from mishandled workplace medical emergencies through BluePoint Alert with an internal **response time of ~30 seconds** over nearly **10 activations within 18 months**.

Safeguard those in your care from on-the-job accidents & inevitable medical crises

When someone is in duress and time is of the essence, C2 mitigates the negative consequences of 'freeze-up' that can be experienced under extreme stress. When it comes to safeguarding people, swift and accurate emergency response decisions are essential.

Rapid Response

Instant Communication Process:

EMERGENCY ACTIVATION & NOTIFICATION

REDUCED TIME TO RESPONSE & AID

Interactive communication with first responders, often prior to dispatch, leads to faster response time.

INSTANT TEXT ALERTS WITH CRITICAL LIVE INTERACTION & RESOURCES
